

**Team 4 Meeting**  
**12/18/03**  
**12:15 – 1:45pm**

David opened meeting with discussion of document by each team to go to Chairs/Deans.

Draft #1

Found wholesale parts of document not included. Difficult to extricate questions.

Draft #3

Not our responsibility to delete, except areas needed. Deans/Chairs don't want to answer some questions.

Administrative Data Collection

Some information could be obtained now. Have information on extramural funding. Due date is February 15, 2004.

Core Component 4d

See agenda handout

#2/3 Could be synthesized into one Line of Evidence

#3/4 Clear

#1/5 Synthesized

Undergraduate Res. – Use of knowledge could be plagiarism! Chemistry doesn't have grad courses that interest the world. Business ethics are not required... explores different views.

At graduate level- people are in good standing and active.

#5 Internships

Need good meaning to the questions (clarity)

Would like to see people behave responsibly

What is best way to regress this?

Recommend changing the sentence 'The University provides curriculum, etc.....'

Health Section

Although they don't have courses or diversity, ethics, etc., the department makes sure they are familiar and knowledgeable on the issues.

Cultural diversity, gender, etc. are important areas. All units on campus that give credit for community service, is to be involved in the process.

Dave will do more rewriting on #5.

Meeting closed at 1:30pm

Next meeting date to be determined.
