## 2006 Graduating Senior Survey Student Comments School of Information Studies

### "Why" or "why not" responses to question "if you had to do it over again, would you choose to attend UWM?"

Closer to home and a very good school for the tuition paid.

The University is like one big family. Everyone gets along here. The faculty and T.A.'s are willing to help and are there for you if you need them. All you need to do is speak up and ask questions if you don't understand something. They are always glad to help.

I think that many of the teacher taught the classes very well. I think that some classes could have been smaller, but overall I think that uwm was a pretty good school.

Part of the reason I chose the school, was because I have family in the area. This led me to getting a job during school with my aunt, allowing work to be extremely flexible. I like that campus is built "up" rather than "out" and the everything is within a few blocks.

UW-Milwaukee has a lot of majors that are being offer.

UWM has many majors/minors to choose from. Transportation to and from campus has become much more convenient over the years I've been there.

I enjoyed the setup of the university - it's not like other schools. I also enjoyed being part of the transition from comuter school to non-comuter.
