If you had it to do all over again, would you choose to attend UWM?	Why or why not?
Probably	It would have been easier to start where I ended up instead of having to transfer. The transfer was not pleasant and extended my graduation date by nearly 2 years. So starting and ending here would have been more efficient and pleasant.
Probably	It's a good place to go considering I live so close and can commute.
Probably	Not sure because I would like a different style of teaching which I would be able to receive from another university.
Probably	Only option for bachelors degree in architecture in the state.
Probably	personal reasons
Probably	The overall experience has been quite good, but the first year or two had very little to do with my major and some were covering things I had already learned in high school.
Probably	The scholarship opportunities seem limited. I finished high school second in my class and received a full ride scholarship to Ball State University, but no assistance here
Probably	Want to experience somewhere else.
Probably No	I came to UWM as an Architectural Undergraduate because UW-Madison did not have the program. I never had enough of a reason to transfer, but probably would have gone to UW-Madison initially had I gotten the opportunity to do it all over.
Probably No	I have a long list of reasons. If you would really like to know exactly why, please email me.
Probably No	It is a not a student-aligned institution. The university is not welcomed in its neighborhood. The dean's office has nothing to do with the student body. Sub-par instruction from tenured professors.

If you had it to do all over again, would you choose to attend UWM?	Why or why not?
Probably	it is the only school in wisconsin with an architectural degree, and after recieving a bachelor's degree i believe that the architecture program is good and on the right track.
Probably	It is the only UW school with an Architecture program.
Probably	It would have been easier to start where I ended up instead of having to transfer. The transfer was not pleasant and extended my graduation date by nearly 2 years. So starting and ending here would have been more efficient and pleasant.
Probably	It's a good place to go considering I live so close and can commute.
Probably	Not sure because I would like a different style of teaching which I would be able to receive from another university.
Probably	Only option for bachelors degree in architecture in the state.
Probably	personal reasons
Probably	The overall experience has been quite good, but the first year or two had very little to do with my major and some were covering things I had already learned in high school.
Probably	The scholarship opportunities seem limited. I finished high school second in my class and received a full ride scholarship to Ball State University, but no assistance here
Probably	Want to experience somewhere else.
Probably No	I came to UWM as an Architectural Undergraduate because UW-Madison did not have the program. I never had enough of a reason to transfer, but probably would have gone to UW-Madison initially had I gotten the opportunity to do it all over.
Probably No	I have a long list of reasons. If you would really like to know exactly why, please email me.
Probably No	It is a not a student-aligned institution. The university is not welcomed in its neighborhood. The dean's office has nothing to do with the student body. Sub-par instruction from tenured professors.
