If you had it to do all over again, would you choose to attend UWM?	Why or why not?
Definitely	The CLS program was very good and had very good instructors
Probably	It's proximity to my house made it easier to attend
Probably	no comment
Probably No	The Health Care Administration program is a mess. There are not enough professors, and the program was terrible in the sense that I did not give me insight or challenge me in any way. Not what I expected to feel when I graduated.
Definitely	It offers the major of my dreams - Occupational Therapy.
Probably	Overall, with this being my second undergraduate, it was a much better experience than the first. The program had some problems, but in the end it worked out.
Definitely No	While the program has some excellent instructors, it also has some extremely poor professors. The lab facilities are antiquated and, at times, irrelevant to the real work world.
Probably	had the degree program I wanted. Cost cheaper than private schools. However, professors were far below exceptional level.
Definitely No	UWM is not well regarded for its Kinesiology program and the quality of instructors reflected this reputation. I do not feel well-prepared to enter the field based on my education from UWM.
Definitely	UWM provides many resources for students to develop and I loved the active atmosphere.
Probably No	The main reason I would not want to graduate from UWM is that the advising in Health Sciences was of little help and actually confused me throughout my career at UWM. The process of graduation was so stressful because no one showed any guidance and the people who I thought I could rely on to help guide me through did very little to make the process smooth. I did enjoy the actually schooling at UWM, and enjoyed professors and the newly discovered school spirit. But the fact of not feeling comfortable knowing the steps of moving forward with a degree and constantly being told wrong information is something that I would never want my worst enemy to deal with.
Definitely	The prof. are excellent
Probably	Because it took me longer then expected to graduate.
Probably	It is a good school however it seems to have trouble with retention of the advisors.
Definitely	Attending UWM has been an amazing experience. I have learned so much and I have met so many amazing people.
Probably	For a small campus UWM has a lot to offer its students. The services provided to the students(TARC, writing center, LINKS) really helped me adjust to college life as well as lended support for any needs that I needed fulfilled.
Definitely	I've built amazing relationships, and I've experienced so much. I wouldn't trade it for anything ever.
Probably No	Didn't evaluate all potential options
Probably	I might. It seems like less of a choice and more of the like the best option available at the time.
Definitely	Because of the undergraduate occupational therapy program
Probably	I had a good experience but i also feel that i may have missed out on some hands on learning.
Definitely No	It's the city. Too much crime and unaffordable. Also, too many foreign teachers for important classes. Took more time to understand what they were talking about in class and hard to understand materials.
Probably	Good size university for me, quality instructors in HCA
Probably	I had a good experience at UWM.
Definitely No	The overall bachelors degree was horrible. The professors were NOT helpful. Chemistry Department was the worse. There is no need to have soooo much chemistry for this major.
Probably No	Too much redundancy.
Probably No	I would have given it a deeper thought as to which University would have fit me best. UWM was chosen because it was close and relatively cheap.
Probably	fun diverse
Probably No	I think it was a bit too easy towards the end of the program.
Probably	I hate the crime in the city of Milwaukee, there I love the school but the surrounding area needs improvement.
Definitely	for the major of radiologic technology

Definitely	yes- best school and location for me
Probably	I enjoyed the faculty and staff. The classes were structured for the most part. The website was easy to use.
Probably	I would choose a different major before pursuing my intended career though. The Pre Physical Therapy program is not very good here.

Definitely	It was a good experience
Probably	I love the city and the community of Milwaukee

If you had it to do all over again, would you choose to attend UWM?	Why or why not?
Definitely	degree program (HCA) only offered at UWM and UW Eau Claire, like the amenities Milwaukee offers
Probably No	I didn't really like how the university is in a big city and transportation can be a hassle and stressful part of going to school.
Definitely	I love my program and professors
Definitely	I believe the program I am in is a good program and the professors are knowledgeable.
Probably	I wish there were more hands-on type of classes and activities.
Definitely	yes, because of the resouces available and facilities
Probably	This was the only school I looked at and applied to. If I had the chance to do it over, I would examine more options.
Definitely	The HCA program is accredited and they offer a diverse amount of classes that are relevant to the degree that I want.
Definitely	I attended a much larger university before transferring to UWM, I felt unotticable there, here though this is not a small school, the atmosphere is much nicer. I have had a good experience with teachers, tutoring services, and advising services. I have enjoyed my overall experience at UWM.
Probably	Better teachers in the Kinesiology department than previous colleges attended.
Definitely	The professors in the kinesiology program really cared about their students success. They were not trying to cram meaningless facts into our brains.
