

**2009 Graduating Senior Survey Student Comments  
School of Architecture and Urban Planning**

If you had it to do all over again, would you choose to attend UWM?	Why or why not?
Definitely	Good school and close to home. Plus the faculty is friendly and helpful
Probably No	no community atmosphere, too large
Probably	Only school in Wisconsin with Architecture degree
Definitely	UWM allows for a comprehensive, communal, and global academic experience in an urban environment. At the same time UWM ensures that you as an individual succeed and are working to your full potential.
Definitely	I didn't expect as much as I got, that's for sure. The university's quality of education is exceptional, and I didn't think I could find something like that so close to home.
Definitely	I enjoy the program that they offer.
Probably	Nice consolidated campus, friendly staff and a more than adequate education. Security is a slight issue that should be of concern to those choosing the school, though not much the University can actually do though, very unfortunate.
Probably	I have truly enjoyed all of the time I have spent at UWM, both academically and socially.
Probably	Because i don't completely feel ready for a 'the real world' I can't say that UWM was the best choice for me; however, I do feel that UWM has helped develop my skills and interest in architecture.
Probably	its a good school
Probably	I really wish the BS in Architecture was accredited.
Probably	great architecture school.
Definitely	UWM was an awesome experience. I was going here regardless of other schools in Wisconsin based on my major of architecture. Being from Brookfield, I was skeptical of being in close proximity of home. . I was surprised with the student life all over the immediate area of campus. The dorms were an essential experience to find friends for my future years in college. I wouldn't trade for another undergraduate experience. Although it would help to get a football team .
Probably	Change in views, although those views were influenced by my education at UWM, so it's hard to say.
Definitely	Becasue I really like the architecture school and the faculty
Definitely	It had a good Architecture Porgram
Definitely	I love everything about UWM, close to home, great campus, amazing opportunity for internships, excellent teachers and the architecture program is great.
Definitely	Faculty and school gave much insight into my major with multiple oportunities for professional advancement and personal gain
Definitely	Everything UWM has given me has assisted me in some way or another. I have grown so much here and I don't think I could imagen living these past 4 years with another university.
Definitely	UWM was a very convenient school to attend due to its proximity to home and the reputation the School of Architecture has built for itself greatly influenced my desire to attend.
Probably	I thought the program was well structured and the faculty seemed very qualified and provided a good experience for me. I might have chose a different school just to be at a larger campus, although being near a downtown was a positive aspect.
Probably	I enjoyed the experience at UWM, but would have liked to venture further away from Millwaukee where I grew up.
Probably	The school offered a variety of teachers and outlook.
Definitely	The faculty here is amazing and completely ready to devote time to students. I had an amazing experience here and hope to continue next semester in Grad school
Definitely	UWM has a great Architecture program
Probably	I dont like the social life at this school. no sports, not a social campus. it has no stress relief.
Probably No	Milwaukee's Architecture program didn't prepare me for graduate school or work.

School of Architecture and Urban Planning**

If you had it to do all over again, would you choose to attend UWM?	Why or why not?
Definitely	UWM has a lot of renowned faculty in its departments but it does cost as much as other schools with great faculty and the neighborhood around UWM is not a "student ghetto" but rather a collection of students, families, professors, and scholars who all try to maintain a high standard for the community.
Definitely	I enjoyed my time here and received a quality education while doing so
Probably	strong design school
Definitely	Excellent school for architectural design and has inspired me to work harder for what i want to achieve.
Probably	I feel well trained to move into the profession and into a Master's program. Got more in my education than I expected.
Probably	Close to where I lived, heard it was a good architecture school.
Probably	Reputable Architecture program
Definitely	Excellent program
Probably	It's in Wisconsin, and I got to keep a scholarship.
Definitely	Am happy here.
Probably	good architecture program
