

**2011 Graduating Senior Survey Student Comments**  
**School of Architecture and Urban Planning**

If you had it to do all over again, would you choose UWM?	Why or why not?
Definitely	enjoyed it very much
Definitely	Excellent Instructors; excellent facility for learning; great atmosphere for education
Definitely	Expanded my view on architecture and exposed me to new ways of thinking
Definitely	Good approach to teaching. Great facilities (SARUP)
Definitely	Great campus and great architecture program. I really enjoyed my college experience here. 4 years ago I came on a campus tour and there were 3 selling points for me: 1 Bob Greenstreet made the architecture program seem excellent. 2. UWM has the only architecture program in the state and it is the closest to Madison where I grew up. 3. This one is kind of funny. As an incoming freshmen the Sandburg dorms seemed really cool and were far better than the dorms I had seen at any other school.
Definitely	Had a great experience. All my professors were wonderful and I love Milwaukee.
Definitely	I went into Architecture blindly; knowing relatively nothing about the field or professional practice. SARUP has given me a plethora of exposure to design, theory, and practice.
Definitely	In-state tuition; Great architecture program; Wonderful city
Definitely	Initially, i didn't want to consider UW-Milwaukee, because, i was afraid of the high crime rate and didn't believe I could adapt to the lifestyle.
Definitely	It is close proximity to where I live and I am very satisfied with the program here.
Definitely	It is the only accredited architecture college in Wisconsin. There is no other option.
Definitely	The architecture program was great in terms of its rankings, professors, classes and opportunities. I truly enjoyed the experience.
Definitely	The Architecture program was very helpful and the smaller studio environment is one of the main reasons why I chose this school and it was very helpful to me!
Definitely	The people and program were right for me.
Definitely	Yes, Great institution, It has expanded my mind and allowed my future professional growth
Probably	cheap
Probably	competitive program; competent faculty
Probably	Good arch program/inexpensive
Probably	Good price and education for undergraduate architectural education but there are stronger programs out there.
Probably	High academic accreditation.
Probably	I enjoyed the staff and course work load.

Probably	I learned what I came here to learn. The downside is that I didn't get to experience college in a traditional environment. The campus is just okay.
Probably	I love the program here. Milwaukee was the clear choice because it didn't require too much moving. Also, the program is respected nationwide
Probably	I was very happy with the school of architecture at UWM
Probably	It was the perfect combination of good teaching, good price, and a wonderful city.
Probably	love the city
Probably	My advisor was of little help to me during my time at UWM. I felt unimportant and pushed around from person to person and department to department whenever I needed to get something done.
Probably	Only for my study abroad opportunity and Chicago studio experience in architecture.
Probably	The campus offered an intense and successful program in Architecture while allowing freedom in extra-curricular activities and choice in possible minors.
Probably	The community within my school was great, I really enjoyed the architecture program
Probably	The other option was UW-Madison with a career path in the medical or business field.
Probably	The School of Architecture and Urban Planning needs a lot of updating and course revision to better prepare myself for the current world.
Probably	UWM gave me a good foundation for graduate studies and any university. I also enjoy Milwaukee and the Midwest.
Probably No	I ended up being unhappy with the Architecture program at UWM for several reasons.
Probably No	I have different interests in specialties than the school offers
Probably No	I would want a different experience.
Probably No	I've had too many teachers who did not care enough to challenge classes.
Probably No	No, if i had to it all over again i would probably choose a school closer to home or in Michigan. I did not realize out of state tuition would be so much.
Probably No	The colleges are great, but existing in a city is unnatural; an agoraphobic fit.
Probably No	UWM doesn't really have an atmosphere of excellence and high achievement. A lot of my peers, the students that go here, are pretty of dumb and lazy.
