

School of Information Studies
2012 Graduating Senior Survey Comments by Response to
"If you had it to do all over again, would you choose UWM? Why or why not?"

Definitely

great people, great services

Great School and Great Community

Great university

I did, in fact, start over half way through the process.

I enjoy the diversity and wide range of classes available at UWM. I also love living in Milwaukee.

it has a great art program.

It's a great school and it has what I needed

location location location

Love the environment.

The on-line experience has been great and has allowed me to complete my 2nd B.A. while working full time.

UWM has everything I could ask for in a college. I love the professors, the classes, the classrooms, everything.

Probably

As a working adult, I appreciate the effort that UWM puts into serving people like me. On the other hand, I sometimes feel that UWM is too focused on the 'practical' and tends to be too discipline-specific.

Close to home, and offers online classes.

Great professors but my advisor was not really helpful at some points.

I liked this school. it's big enough for me, this school used to be do not have bunch of internationals.

Initially, only four of my 68 credits from MATC transferred. When I told my advisor that I would go to MSOE instead, the number magically jumped to 64. Although competitive, I think college tuition is out of control.

It is a great university and all employees really work to help out the student.

it took too long before I was introduced to SOIS. I was a transfer student and SBA took none of my credits; SOIS took almost ALL of them. I could have graduated sooner if I had this info.

poor library hours

Some area is good, but some are terrible like when I was in CS, professors do not present clear materials, and most TA and professors from native country (india), picky, can't understand, I got academic situation, can't understand a thing they say and almost had to drop out with burden loans. change the major, been doing so well after.

The School of Information Studies undergraduate program is a great school.

UWM taught me many things that not only broadened my horizons but prepared me for a career in IT and the possibility of grad school.

Probably No

Being African American I wanted to attend a Black Historical College for the cultural experience.

Did not realize it would be this hard to be away from family.

No rating

I would have like to have gone to Madison, but it did not work out that way. I enjoyed my schooling at UW Milwaukee very much though.

It was great experience.

The online courses worked well with my busy schedule. The professors were wonderful and I felt I

learned a great deal from them.

The online degree program in my major, the caliber of the professors, and the graduate program in Library and Info Science all fueled my choice and my satisfaction with this choice.
