

School/College College of Health Sciences

Choose UWM again? Why or why not?

Definitely

Awesome professors, and great location that provided many hands on experiences.
Closer
Excellent OT program, well respected, wonderful faculty
Great atmosphere and loved the city.
Great Learning enviroment, Helpful faculty, well structured courses and Laboratory experience.
Great School!
Has a great HCA program and loved living in by the city
I enjoyed attending UWM and it was close to home.
I had a great experience from freshman year up until graduation. I have made excellent relationships that I hope to have for the rest of my life.
I had such a great experience with the faculty and loved the experiences I have had along the way.
I had very good instructors and was a very good experience
I have had so many opportunities by attending UWM.
I learned a lot of life lessons at UWM, both in the classroom and out of it.
I like the size of the campus and the staff were really open to help when needed.
I like the system
I love the campus and the classes. I have had a positive experience both on and off campus for the 3 1/2 years I have been at UWM.
I loved the atmosphere here at UWM.
I loved the environment and professors.
I originally was attending UW-Stevens Point for physical therapy. I then transferred to UWM to be closer to home. My advisor told me about the OT program after I had doubts about PT. I could not be happier with my decision to transfer to UWM and apply for the OT program. The program here is awesome and I only hear good things about it from other universities and professors.
I thought UWM offered me the best education possible and I liked many of the opportunities that UWM has offered me. For this reason I am attending graduate school at UWM.
I wish I would have gone to UWM from the start, I intended on graduating from UWO, however found the program here that better suite my liking, so transferred.
I would chose it again because it is in the city I live in and has the most degrees that I would be interested in. As compared to Marquette or other colleges in the area.
Is a fun school and can get a really good education here.
love the campus, close to home, great program.
My professors' enthusiasm for the field has inspired my education process.
The campus is large enough that it feels like a university, but small enough where it still feels manageable. I was able to commute to class and save money by living with my parents.

The curriculum for the Medical Laboratory Sciences program is much more adverse and clinically relevant to the major and career than the other school that I attended and graduated from previously.
The HCA Program has been great. I've made so many wonderful friends and the faculty is really looking out for my best interests. I've really enjoyed my time at UWM!
The Occupational Therapy program is wonderful and renowned around the nation.
The professors were great, I learned a lot, and it was affordable.
They had the best program for my degree. UWM had affiliations with some of the best hospitals in the state.
This program was ranked among the top 10 of this type and I feel it has really prepared me for the career.

UWM had the programs I wanted and ultimately, has shaped me for a future career I never dreamt of.
UWM has a competitive Communication Sciences and Disorders Program. I also enjoy the UWM community and its diversity.
Very knowledgeable teaching faculty and great campus.

Yes. I have found both the environment and the staff to be welcoming and conducive to my education.

School/College	College of Health Sciences
Choose UWM again?	Why or why not?
Probably	<p>good selection of majors to choose from</p> <p>Great for my program. Unsatisfied with the number of online classes I had to take and long distance class I had to take which pertained directly to my major.</p> <p>Had some instructors that were not very good teachers. Overall, pretty good experience.</p> <p>I enjoy the atmosphere of the campus. It is also very easy to commute from home.</p> <p>I feel that it provided a good learning environment with sufficient resources.</p> <p>I really enjoyed UWM and feel that my experience was what I was looking for. I think that I gained a great education while having an enjoyable time. I also like the campus size, the other students, and the overall experience.</p>
	<p>I think I would've gone to a technical college first to complete my general studies than transfer to UWM. UWM was my first choice because I did not want to go anywhere far; I still wanted to stay in Milwaukee. It had a great research department in nearly every program. It was big enough to take on many opportunities, yet the buildings were close to one another which gave it a "smaller campus" feel.</p> <p>It was a good transition from high school to college. Class sizes were perfect (for me at least). My program was outstanding. Awesome staff. Small class sizes. Incredible academic experience.</p> <p>Nice and compact campus with good campus jobs.</p> <p>Once I entered my Major Program, they were very strict about doing things on their time. It was difficult to receive accommodations for conflicts with certificate programs.</p> <p>One of the reasons I went to UWM was because I could work on my prereqs while I applied & the other schools said you had to FINISH them before I applied. I did like the program, but I'm sure I would have liked the others as well.</p> <p>Overall good experience.</p> <p>Pretty good experience</p> <p>Some of the teachers do not meet my expectations</p> <p>The BS/MS program is convenient</p> <p>The urban setting is a great environment for receiving a culturally competent education, which I feel is essential for my future line of work.</p> <p>They have a good MLS program and are close to home.</p> <p>Yes I would. I feel strong about the knowledge that I obtained throughout my classes and know that I will excel in my field and become the best I can be at it.</p>
Probably no	<p>Had no flexibility with selection of my courses which caused a year delay in graduation</p> <p>I feel I would have had more challenging courses at another university.</p> <p>I really enjoyed my experience here and most of the faculty was great.</p> <p>If I had a different major, I would consider UWM again but I did not like how the college of health science HCA major was very limited in instructors and class dates/times</p> <p>Nothing exciting on campus, everything is outdated, athletics isn't that greatest/no school spirit, but I love the city of Milwaukee.</p> <p>Parking was very stressful- Being here all day I do NOT want to pay for parking!</p> <p>The program was very unorganized at times, and I do not feel prepared to enter into my clinicals at this point.</p>
Definitely no	<p>Advisors messing up my schedule and have no idea what they are doing</p> <p>I feel that this University has provided me with a very well-rounded education that will definately take me to the next step I need to go.</p> <p>UWM has changed my life due to all of the great people I've met and it's exposed me to different aspects of life.</p> <p>There are many universities where diversity does not exist and is not welcome. UWM has the ability to cultivate diversity in a very positive way.</p>
