

2016 College of Nursing Graduates

"If you had it to do all over again, would you choose UWM? Why or why not?"

Definitely

Good nursing program

I feel I was able to get a well rounded education at UWM. It has been a great experience being in the nursing program. I also had the privilege of learning American Sign Language while I attended the college.

I feel prepared for my future role as a nurse in Milwaukee. My instructors were excellent.

I feel that I have received a well rounded education from instructors who care about the welfare of their students.

I feel that I was given the knowledge I need to successfully transition into the workforce.

I feel that the education that I received was high quality and will help me in my job search.

I feel that they did an outstanding job of giving me a well rounded education.

I feel that UWM has provided me with a quality education.

I had a great experience here. Professors are knowledgeable and available. Tutoring and support services were available to help me succeed.

I have had a good educational experience, and my time here has prepared me for my nursing career.

I love the Honors College!

I really enjoyed the program

I was involved in some great programs that helped me get my foot in the door at my current job and with UWM's College of Nursing. I don't think I would have done well in college if it weren't for certain mentors and advisors I worked with. I also met some great friends.

I would choose UWM again because I feel as though it offered me so much knowledge, diversity and opportunities that allowed me to reach my goals. Thank you so much, I am so thankful!

It feels like home to me, given I already have a degree from UWM. Also, I liked the ADN to BSN program and how a large portion of the classes were taught off campus at my hospital and neighboring hospitals.

It has a cool fountain.

Liked the campus

Really enjoyed the nursing program. Learned a lot!

UWM has provided me with an excellent education for my future. I have made many great friendships along the way. My professors have been great role models and mentors. UWM was the perfect choice for me.

UWM was welcoming and a great place to transfer to.

Yes, the cost is reasonable and the requirements are similar to other BSN programs.

Probably

Close to home

ADN to BSN program was very flexible and advisor was wonderful.

Although the RN to BSN progression took longer through the UW system, I have confidence that I can pursue graduate degrees without any problems related to undergraduate studies, such as those from other non-accredited programs.

At times the Nursing Program and the time leading up to the program, everything seemed a bit unorganized.

Because I have enjoyed my experience thus far

Convenience

I am from a small country town and am used to face to face and hard copy written communication, All the communication and assigning of projects and assignments through D2L and email dehumanized my experience here. It was also hard to know/understand up coming events when the professor never addressed or acknowledged them in class only through the many emails we received
I feel like it provided a lot of good opportunities.
I love the diversity at uwm, the nursing program is great and has many opportunities for students to grow as well as become more versatile in many skill areas.
I think I received a decent undergraduate education for the price I paid.
It offered good classes but I don't know if I would want to make the trip because I live farther north.
It was a great school, but towards the end of my degree I felt that the changes made to the program were very unorganized which made it frustrating.
It was local. Tuition reasonable
It was very confusing to navigate. I prefer smaller universities.
Milwaukee is close to my hometown. The school was great but often felt unsafe being outside past dark, The crime rate in Milwaukee is very high.
More affordable than other schools
More affordable than private school... the College of Nursing was a little disorganized though
seems to be a lot of lack of communication amongst the nursing faculty
The agreement between UWM and MATC made it easy to transition to UWM.
The city can be exciting and there are plenty of opportunities for learning in the area.
The College of Nursing at UWM is one of the best nursing schools in Wisconsin. Overall the faculty was great, however the program was very unorganized.
Unorganized program, lack of communication
UW-Milwaukee College of Nursing is an excellent program but would have liked to attend a different university
UWM worked with accepting credits from my prior degrees and the price for a BSN was much better than the other schools
Probably No
Nursing program was not good as I expected it to be.
The nursing program here was not what i expected from UWM. It is disappointing to feel like i don't know anything because i wasn't taught anything
the program was disorganized as we received late notice on things and curriculum changes discouraging
The Program was disorganized. lack of support from staff.
UWM has allowed me to learn a lot pertaining to my major; however, the program in itself is very disorganized.
Your nursing program is a disorganized mess, and I feel your program does not spend nearly enough time learning nursing skills. I understand the need to teach us to "think like a nurse", but I feel very little confidence in myself actually going out into the real world.
