

## 2016 School of Architecture & Urban Planning Graduates

"If you had it to do all over again, would you choose UWM? Why or why not?"

### Definitely

As a transfer student, I have experienced first hand another university. UWM has been everything I have dreamed about and more.

Because I had a good experience here!

Beyond the faculty I've worked with and friends I've made- all of whom are intelligent and engaged- attending UW-M opened to me a city ignored and emphasized the importance of accessible higher education.

convenient distance to my work and home

Great Architecture and Honors program

Great school. Amazing city. Incredible learning environment

great undergraduate program for architecture.

I am extremely satisfied with my experience at UWM's School of Architecture

I'm still in my home state with the advantage of becoming familiar with Wisconsin building styles and needs, I've felt pushed to do my best and came out a much improved person after all the studio courses.

I'm very satisfied with my program.

Instructors were great, progressive university, friendly and accommodating people.

It has an excellent Architecture program.

It is a School with a strong Community.

It was a much better experience than mine at MSOE prior.

Milwaukee was a great city that provided a helpful environment for learning.

Not because of the quality. Because it is the only Architecture school in the state.

Only architecture school in the state, but I did like most of the staff, they were as a whole very good at teaching.

Over the years, I have grown to love UWM and what they stand for.

SARUP has a reputable architecture program.

The Faculty; The Facilities; The Students.

The program for Architectural Studies at UWM is fantastic.

the University of Wisconsin-Milwaukee is located at a very convenient location close to my residence and it is also where I have access to all materials needed to do my assignments.

they have a good architecture program.

Uwm has a great architectural program. It was a great fit for me.

UWM School of Architecture offers instruction from highly educated and diverse people.

Yes, they have the best architecture school in the state, and they are very widely recognized within the nation for their architecture program.

### Probably

Yes

N/A

Anti Student

Architecture Program is ranked high for what we pay in tuition fees.

I chose this school because I had heard that Milwaukee has a great Architecture program

I loved the program and the city

I prefer being in Milwaukee now that I have been here, but the probably comes from questioning if I should have left my hometown.

I was a little uninformed about the education that someone needs to become a licensed architect. Ideally I would have done a 5 year Bachelor of Architecture.
I would look into universities with a B.Arch program not a BSAS program.
Might change undergrad to Structural Engineering then architecture for graduate school
My experience at UWM was good. The architecture program challenged me to become the best student possible.
One of the best program
Only school in the state with this option.
The weather here is too severe.
There are a lot of networking opportunities and events held by the Architecture program that help for real world applications
Wanted to go to more of a traditional open and green campus what is nationally recognized.
Would have liked to move outside of Wisconsin.
<b>Probably No</b>
I would have moved to California to pursue my baseball scholarship and went to architecture school out there.
The Architecture program is not as good as other schools. Particularly the professors.
