RATIONALE:

CIS - Micro Programmer Specialist Associate Degree: The Computer Information Systems - Micro Programmer Specialist program from MPTC prepares students to become professional microcomputer programmers. Learners receive training in computer programming languages, client/server applications, database theory and application, both systems analysis and design, Internet applications, operating systems and software applications.

SOIS at UWM offers a Bachelors of Science Degree in Information Resources (BSIR). This allows students to add upper-division Information Resources, Interdisciplinary/cross-functional, and Liberal Arts courses to their Associate's Degree. The cutting-edge Bachelor of Science in Information Resources (BSIR) provides students with a quality interdisciplinary and cross-functional education, giving them an understanding of how information is sought, organized, manipulated, repackaged, and applied in a variety of settings. Building on a general undergraduate education, the BSIR introduces issues related to information science, information architecture, human factors in information seeking and use, information storage and retrieval, and applications of the internet.

Students earning the **CIS - Micro Programmer Specialist Associate Degree** from MPTC will be able to transfer the credits listed in Table 1 toward the Bachelor of Science in Information

Resources (BSIR) in the School of Information Studies (SOIS) at University of Wisconsin – Milwaukee (UWM).

The BSIR program includes a total of 120 credits. These credits are distributed in the following areas:

- Area II: BSIR Core Courses (36 credits)
- Area III: BSIR Cross-functional Electives (15 credits)
