  - a. School of social welfare: Textbook rentals are being examined and a survey is coming out regarding that. They will compile the results of the survey and report back to the B&G committee with their findings. It has been noted that schools that rent books are not any cheaper than buying them. This is also different in colleges where students are encouraged to save their books to build up a reference library.
  - b. Student success center: New survey on web, on virtual success center-go to the center and get answers right away.
  - c. Common course evaluation to use across campus was also discussed at the campus B&G committee meeting. There were many questions, whether it will be paper evaluation, or on-line, what to include in the evaluation, etc.
  - d. Pick a professor was also discussed in relation to common course evaluation.
4. May 7<sup>th</sup> meeting, Rose Billingsley & Eileen Sheil will make plans to attend meeting with the regents.
5. Received feedback from Parkside representative Ruth Wishau that the CON B & G committee survey was a good idea.
6. Discussion on the structure of classes and computer exams.
7. Web-site: Discussion regarding the CON B&G committee web-site, and what should be posted on the web-site. Suggested that it be put in format and then sent out to committee members to get feedback.
8. Make-up of committee was discussed, including the possibility of re-establishing the committee to include those students who really are interested in being a part of the B&G committee.
