The Human Rights Committee met seven times from October - April during the 1976-77 academic year. It engaged in the following activities:

1. A revision of the charter of the Committee was forwarded to the Faculty Senate for consideration. Of note in the charter revision is the inclusion of members of the academic staff as voting members in addition to the faculty, students, and classified staff already specified in the current charter.

2. The Committee provided input into the deliberations of the Chancellor's Special Task Force on UWM Grievance Procedures and Title IX, and the University Committee's subcommittee to review faculty grievance procedures.

3. The Committee reviewed one grievance.

4. Vice Chancellor Walters approached the Committee about the possibility of the Committee assuming the functions of the Standing Committee cited in Recommendation 1 of the Title IX Task Force. The Committee met with members of the Title IX Task Force to consider the feasibility of this action, and to obtain suggestions for proceeding.
