In preparing the slate of nominees for elective standing faculty committees and the list of suggested names for the Provost for the appointive committee the Committee on Nominations and Elections used the following procedures:

1. Preference sheets were prepared and distributed to the Faculty for both elective and appointive committees. The first, second, and third choices were tabulated from the 148 returns out of a possible 402.

2. A roster of committee load for each faculty member for the past three years was prepared. This included all-University and UW--M appointive and elective committees.

3. Criteria were established to select a maximum number of individual faculty members in order to achieve continuity, balance, and distribution. Selections were influenced by but not limited to choices submitted on the preference sheets.

Nominations from the floor may be made at the faculty meeting, May 12. If you wish to make a nomination, the Committee on Nominations and Elections invites you to make use of the charts, criteria, and other data used in preparation of the attached slate. These data will be available in room M235 until the time of the faculty meeting on that date.
