1979-80 ANNUAL REPORT OF THE COMPUTER POLICY COMMITTEE

The Computer Policy Committee held scheduled meetings on September 25, October 16, and November 13, in 1979, and on February 12, and March 11, in 1980, to date.

The Sub-committees established in 1979 (Rate, Computing Software, Five Year Academic Computing Needs and User's Group) were reestablished.

Special emphasis was made to deal with the problems of the so-called super users, who need massive computing time far exceeding any reasonable budget, and some problems with communication between the Graduate School and the faculty it supports.
