Recommended guidelines for the proper compensation of faculty governance activities:

(1) Those positions to be rewarded by the Chancellor for committee service at the university level should be determined by the Chancellor in consultation with the Deans and the University Committee. This list, which may include both standing and ad hoc committees such as Search and Screen Committees, should be made known to the Faculty Senate and to departmental executive committees no later than the end of the Fall Semester.

(2) Additions to salaries should be uniform in fixed dollar amounts for all positions on the list, except for that of the University Committee Chair, which should be given 1.5 times the dollar amount awarded to each of the other positions on the list.

Rationale: These recommendations will serve to codify past practice and to encourage participation in faculty governance activities.
