of the
University Relations Committee

The University Relations Committee advises on university relations policy and programs. It advises and makes recommendations to the Division of University Relations and/or the University Faculty or Faculty Senate on matters of development, public information, alumni relations, governmental relations, publications and other related subjects.

The Committee met two times between September and March of the 1980-1981 academic year. The focus has been on University publications. The Committee received testimony from eighteen faculty and staff using printing and graphic facilities and producing publications of one form or another.

As a result of this testimony the consensus of the committee was that the following steps needed to be taken:

1. Make a complete inventory of available services.
2. Make available a handbook of services for those publishing materials to ease the immediate problem.
3. Address the fundamental problems within the publication system.

The committee passed a motion that the chairman request that a committee be formed to survey the publications and graphics system as it exists and suggest policies to make the system more effective and cost efficient.

The Chancellor has been invited to the next committee meeting to discuss the issue.

1980-81 UNIVERSITY RELATIONS COMMITTEE
