1982-83 Annual Report of the
Physical Environment Committee

The Physical Environment Committee met 16 times from May, 1982 through
July, 1983 and took the following actions:

1. Received, discussed, amended, and adopted the Year 2000 Master Plan.

2. Approved the Union Plaza Committee's recommendation for repair and
   redesign of the plaza.

3. Approved the Parking and Transit Subcommittee's recommendation to
   offer dormitory students the option of parking at the
   Capitol-Humboldt UPARK lot on school days and the Sandburg Hall lot
   at night and on week-ends for a cost of $31.50.

4. Approved relocating the memorial plaque of Herman Henderson to an
   Enderis Hall site.

5. Rejected the Parking and Transit Subcommittee's recommendation to
   convert the North Parking lot to metered parking; recommended that
   the reinstitution of a car-pooling requirement for the North lot be
   considered.

6. Discussed, amended, and approved the Transportation Plan.

7. Appointed members to the Facility Design Advisory Subcommittee of
   the PEC.

8. Approved the area west of Lapham as the general site for the
   proposed Science Research Building.

9. Approved, and later rescinded approval of, locating the proposed
   General Services Building on the site of the Temporary Academic
   Building.

10. Approved a project to repair the plaza to prevent water leakage
    into the Union building.

11. Approved the creation of a Downer Woods Task Force and appointed
    its members.

12. Approved revision of membership on the Parking and Transit
    Subcommittee.

13. Reviewed the procedures relating to major and minor projects.

15. Recommended clay tile roofing for Marietta House. This recommendation was later disapproved by the State Building Commission as too costly.

16. Approved removal of a segment of Maryland Avenue fence just north of Sandburg Hall.

17. Approved the Parking and Transit Subcommittee's recommendation to reduce the number of dormitory-resident on-campus and North lot parking permits for 1983-84.

18. Requested the Office of Planning and Construction to study and report to the PEC: the loss of surface parking to new construction, permanent replacement of those lots, and cost implications of replacing surface lots with indoor facilities in new construction.

19. Approved the recommendation of the Names of Buildings Committee to rename the Campus School the "Ethel Wright Kunkel Center."

20. Began consideration of sequencing and locating the capital building projects called for in the Year 2000 Master Plan at its March meeting. Discussion continued throughout the year and will be continued next year. The possibility of constructing a physical model of the campus continues to be explored.

21. Approved the locations of ten (10) additional bus shelters on campus.

22. Approved expanding the Cramer parking lot into the adjacent south lot.

23. Approved the Names of Buildings Committee recommendation that the Kenwood Conference and Alumni Center be renamed the UWM Alumni House.

24. Discussed the possibility of redefining the membership of the PEC to always include at least one member from the School of Architecture and Urban Planning, one from the College of Engineering and Applied Science, and one from the Department of Art. There was little support for such change and no action was taken.

25. Reaffirmed that surface parking removed due to new construction should, when feasible, be replaced as a cost item within the construction project.

26. Went on record as strongly supporting the Plaza Subcommittee's proposed reconstruction of the Plaza.
27. Received a report on the Enderis Hall exterior design. Rejected the architect's proposal to use contrasting colored brick in the facade, approved using only red brick.
