TO: Marilyn E. Miller  
Secretary of the University

FROM: George W. Keulks, Chair  
Research Policy Committee

RE: Research Policy Committee Two-Year Report

During the 1986-87 academic year, the Research Policy Committee considered the issue of enhancing incentives for conducting extramurally funded research at UWM. The Committee reviewed four specific research policy issues and submitted recommendations to the Chancellor for consideration, approval, and implementation.

During 1987-88, the Research Policy Committee studied the reward and incentive system at UWM, specifically the degree to which faculty merit salary increases follow scholarly/research productivity. The Committee transmitted four recommendations to Chancellor Smith on August 15, 1988.

At the request of the University Committee, the Research Policy Committee also evaluated the activities of the various compliance functions that were transferred from The Graduate School to the Division of Administrative Affairs.
