The faculty of the School of Allied Health Professions has recommended that voting rights within the School of Allied Health Professions be granted to Sherri L. Sieff, a full-time instructional academic staff member who has a probationary appointment.

RATIONALE: Dr. Sieff, a Clinical Associate Professor, is currently in an academic staff career line within the Department of Speech Pathology and Audiology. She is responsible for the Speech-Language Clinic, supervision of the clinical practicum, and teaches one to two courses per year. Because of her responsibilities and the perceived need to have her directly involved with programmatic decision-making, the Department and the School support her being accorded voting privileges within the School of Allied Health Professions pursuant to UWM Policies and Procedures.

Fred W. Pairent, Dean
School of Allied Health Professions
