EXTENSION POLICY COMMITTEE

Annual Report, 1989-1990

The principle accomplishment of the Extension Policy Committee during 1989-1990 was the preparation of a white paper entitled "UWM Faculty Benefit from Participation in Outreach (Extension) Activities" which will be distributed to all UWM faculty in late April. The purpose of this white paper is to inform UWM faculty about existing outreach activities at UWM and to encourage faculty participation in them. The white paper was a response to the perception on the part of the members of the Extension Policy Committee that faculty at UWM were, as a group, not well informed about outreach activities and about the potential benefits of participation to faculty, and, as a result, did not participate in outreach activities as much as they otherwise might.

The members of the committee also kept informed on the recent activities of the Vice Chancellors' Working Group on the Integration of Extension Function. The members of the committee were especially interested in the review of 101-5 programs and their potential assignment to category 2 status. The members of the committee were also kept informed about recent activities on the part of Dean Shannon to inform the public about UWM Outreach and about degree programs available to non-traditional students.
