Recommendation of the faculty of the Department of Speech Pathology and Audiology and the School of Allied Health Professions' Course and Curriculum Committee that the name of the "Department of Speech Pathology and Audiology" be changed to the "Department of Communication Sciences and Disorders."

RATIONALE: Communication sciences and disorders is more descriptive of the department's educational program and baccalaureate and master's degrees.

The Council of Graduate Programs in Communication Sciences and Disorders, founded in 1978, has for many years urged educational programs to adopt a common name—communication sciences and disorders. The UWM program has been a member of the Council for many years and now wishes to join the increasing ranks of educational programs that have changed their name.

Frederick W. Pairent, Dean
School of Allied Health Professions
