Recommendation of the Faculty of the Department of Communication Sciences and Disorders to change the title of the Major and of the Degree from Speech Pathology and Audiology to Communication Sciences and Disorders

Motion: To approve the following Proposed Change in Degree Title and Major:

Current: Degree Title: Bachelor of Science in Speech Pathology and Audiology
Major: Speech Pathology and Audiology

Proposed: Degree Title: Bachelor of Science in Communication Sciences and Disorders
Major: Communication Sciences and Disorders

RATIONALE: The degree title change and major will conform to the title of the Department, avoiding any confusion which might result from the recent Department name change. The Undergraduate preprofessional program of the Department of Communication Sciences and Disorders offers a Bachelor of Science degree without certification but with a foundation for graduate study. The student who plans to become a practicing speech-language pathologist or audiologist will receive an undergraduate preparation in human communication sciences and disorders as well as a broad educational experience in the liberal arts and sciences.
