The Committee met once during the year. Dr. Adolph Suppan, Director of the Summer Session, discussed the results of the questionnaire which was filled out by students attending the 1961 Summer Session. In view of preferences of the students it seemed advisable to begin the four-week session, and the eight-week session on the same date, June 18. The four-week session would terminate on July 13.

There followed an election of Chairman and Secretary of the Committee.
