Physical Environment Committee
1991-92 Annual Report

The Committee met four times from September 1991 through August 1992.

The PEC took the following actions:

1. Elected Professor Arthur Brooks as faculty vice chair.
2. Received a copy of the Long Range Capital Development Plan for 1991-97 and several status reports on the ongoing building projects.
3. Requested and received a report on the effect of the new parking plan.
4. Discussed the State law and existing campus policy on smoking.
5. Approved the Transportation Subcommittee's report and recommendations.
6. Approved a recommendation to approve Mitchell Hall for a State Historical marker. Approved, by a 10-1 vote, a recommendation to approve Mitchell Hall for nomination to the National Register of Historic Places.
7. Discussed the placement of outdoor campus maps. Further information was to be gathered.
8. Received and discussed the UWM Campus Physical Development Plan Summary Report. This report had been submitted to and received by the Board of Regents.
9. Professor Sander, Chairperson of the Transportation Subcommittee, reported that it had been charged that the Women’s Transit program was in violation of Title IX and Chapter 36 with respect to gender discrimination. The Women’s Transit Subcommittee recommended that the Campus Security Committee form a representative campus-wide working group to consider this issue. In the meantime, the status of the women’s transit program is operation as usual. Chancellor Schroeder stated that our position is that there will be a women’s transit program regardless of what the details of maintaining that program turn out to be.

10. Appointed Professor Ethel Sloane to serve on the Names of Buildings Committee.

Marilyn E. Miller
Secretary of the University
