Since appointment on November 21, 1956, the Committee has held ten meetings. Because the basic structure of the relationship of our Committee to other related areas within the University was not determined during the merger process, much time has been given to this problem. In addition to correspondence, there has been one joint meeting of our committee with a committee from Madison, consisting of L. H. Adolfson (Director of the Extension Division), H. N. McCarty (Director of WHA), and F. W. Haberman (Vice Chairman of the Radio and Television Committee in Madison). It now appears that one or two more joint conferences will be required on this problem.

Handled largely by the UW-M News Service, arrangements were made for representatives of our institution to appear for individual shows on WISN-TV, WITI-TV and WISW-TV.

In addition, upon advice of the Committee, a series of six one-half hour shows entitled, "How Children Learn," was produced on successive Saturdays at 1:30 p.m., beginning March 9, under the general direction of the UW-M Coordinator of Radio-Television, Professor Dorothy Minnace.

On April 30 and May 2, about forty UW-M faculty members were guests of the Milwaukee Vocational School at two television workshops. Local arrangements were made by the UW-M Coordinator. It appears that UW-M will have the opportunity of providing a number of programs when the Vocational School Television station begins telecasting.

It is hoped that not later than early fall, the Committee will have an additional report to present to the Faculty pertaining to work to be done by the Committee.

RADIO-TELEVISION COMMITTEE:

M. Bayley, Director, UW-M News Service, ex officio
V. Berge
R. Erumblay
M. Johnson
D. Minnace, UW-M Coordinator of Radio and Television, ex officio
R. Myers, Chairman
H. Sturm
M. Summers
A. Suppan, Coordinator of University Extension--Milwaukee, ex officio
