The University Committee recommends that the existing UWM Policies and Procedures 1.07(6) be amended as follows:

1.07(6) The final action on each document before the Faculty Senate shall be recorded in the minutes indicating the names of those voting affirmatively, those voting negatively, and those abstaining.

Rationale

This requirement of UWM Policies and Procedures has not been followed in practice for years, if ever. A roll call vote on "each document before the Faculty Senate" would be excessively time consuming and nonproductive. A roll call vote can still be called by the Senate on any specific document as desired by the Senate.

Satisfies the Codification Committee's criteria of clarity, internal consistency, and relationship to other policies and procedures governing UWM.

NOTE: This recommendation requires Faculty action; it cannot be approved by the Faculty Senate.
