1. FAPBC was a new committee created in 1995-96. Members were elected by special election in the Fall of 1995. The committee met for the first time on 11/8/95. It held a total of 23 meetings in 1995-96.

2. From November 1995 through January 1996, the committee drafted the statement which became Faculty Document 2028, "Long Range Strategic Planning for UWM from the Faculty Perspective." The Faculty Senate considered the document in a Committee of the Whole discussion at its February 1996 meeting. The FAPBC revised the document in light of the discussion. A revised Document 2028 was endorsed by the Faculty Senate on March 21, 1996.

3. The committee prioritized Fac. Doc. 2028 in April. The committee testified at the April 24, 1996 hearing on the report of the Chancellor's Academic Planning Committee. The committee resubmitted the prioritized Faculty Document 2028 to the Senate in May. The Senate adjourned for the year before it considered Fac. Doc. 2028 again. It should be on the Senate agenda in the Fall of 1996.

4. In May and June, the committee commented to the Vice Chancellor on drafts of the annual budget planning guidelines. The committee met last on July 26, 1996.

Respectfully submitted,

Margo Anderson, Co-chair
Academic Planning and Budget Committee
