The Library Committee has met to date four times during the academic year, 1962-63. At its meetings, the Committee has consulted with and advised the Librarian concerning (1) allocations policy for Library capital expenditures, (2) budget requests for the 1963-65 biennium, (3) inauguration of the Library of Congress classification scheme, (4) policy and planning for the building of the Library collections, and (5) maintenance of Library services during the construction of the proposed Library addition.

In addition, the Committee conferred with and advised the Librarian on the drafting of a long-range policy statement dealing with the future of the UW-M Library. This document was approved in principle by the Committee and has subsequently been presented in substance by the Librarian to the UW-M Administrative Committee and to the UW-M Faculty at its meeting of March 15, 1963 (UW-M Faculty Document 213).

LIBRARY COMMITTEE

James A. Brundage, Chairman
