MOTION ON ACADEMIC & MASTER PLANNING

In the context of UWM's agreed upon goal to develop as a major research university, the faculty Senate fully supports robust, effective academic planning and master planning that include the following:

- Fully collegial, open, and transparent mechanisms for each planning process involving administration, appropriate governance groups, and faculty from all quarters of the campus.

- Appointment of a steering committee for each process modeled after the NCA self study, made up of key administrators and acknowledged faculty leaders from across campus.

- Consideration of the Chancellor's vision of new UWM campuses in Wauwatosa and downtown Milwaukee within the planning process.

- Monthly reporting to the Senate.

- Final approval of the recommendations of each process by the Senate.
