The Committee met several times during the year to consider the report and recommendations of the Secretary of the Faculty on the allocation of space for September, 1964. The report included the allocation of space in all present buildings as well as the new buildings acquired from M.U.S. and Downer College.

The Committee expressed its appreciation for the fine presentation of such a difficult job by the Secretary of the Faculty. The report was then passed on to the Campus Planning Committee for review.

BUILDINGS & SPACE UTILIZATION COMMITTEE

W. E. Downing, Chairman
