NEW LETTERS AND SCIENCE CURRICULUM

Bachelor of Arts - General Course

Section I Elementary Requirements
Requirements A, B, and C must be satisfied but no more than 14 college credits from Section I can be counted towards graduation. All requirements in Section I should be completed by the end of the sophomore year.

These requirements can be satisfied by:
1. High school courses or
2. College courses or
3. Examination or
4. Any combination of the above

A. Proficiency in English
   Established by one year of Freshman English with possible exemptions.

B. Mathematics
   1. Three years of high school mathematics in the fields of algebra, geometry and trigonometry or
   2. Completion of a college course in algebra and a college course in trigonometry or
   3. Completion of a college course in algebra and a college course in logic.

C. Foreign Language
   1. The equivalent of 14 credits in one foreign language (or by examination) or
   2. Sixteen credits in two foreign languages (only if 2 years of high school Latin are offered in partial satisfaction).

Section II Requirement A or B must be satisfied
A. Foreign Language
   1. Six credits beyond the intermediate level (courses numbered 220 or above) in one foreign language or
   2. Twenty-four credits total in two foreign languages, or equivalent proficiencies (including foreign language requirements in Section I) provided at least 14 credits are in one language.

B. Mathematics
   Eight credits of mathematics at or above the 200 level, or the equivalent of a year course in calculus.

Section III All requirements must be satisfied
Not more than 10 credits from any one department may be counted toward the satisfaction of the degree requirements of this section. However, credits in courses used to satisfy these requirements can be included in the major. Courses designated as acceptable for satisfaction of the requirements of this section will be identified in Timetables as Humanities, Social Sciences or Natural Sciences. No course can be counted for more than one classification. Credits taken in Section II may be applied to satisfy requirements in this section.
A. Humanities
12 credits. Must include 6 credits of any combination of
1. Sophomore level courses in English or American literature;
2. Literature courses beyond the intermediate level in foreign languages; or
3. Designated courses in the Comparative Literature department.

Not more than 6 credits of sophomore level English and American literature may be
counted toward the 12 credit Humanities requirement.

B. Social Sciences
15 credits, at least 6 of which must be in the department of History.

C. Natural Sciences
15 credits in the Natural Sciences including two semesters of laboratory science.

The following distribution of departments is intended as a guide until Timetable designations are made:

Major Study
A student must be accepted as a major by at least one department no later than the first semester of his junior year. The student must earn the grade point average required by the department for admission to the major and must satisfy the major requirements. In no case may the major average be less than C. No more than 45 credits taken in any single department can be counted in the 120 credits required for graduation.

Double Majors
With the approval of the Dean, a student may elect a major in a second department.

Total Credits
At least 120 credits are required for graduation, 100 of which must be in liberal arts subjects. The other 20 credits must be in courses approved by the College of Letters and Science. When more than 14 credits are taken to satisfy the requirements in Section I, the credits in addition to the 14 will not be included as a part of the 120 credit minimum. At least 75 of the credits included in the 120 must be outside the major and outside of any one department.

Bachelor of Science - General Course

A student who, in completing the requirements for the Bachelor of Arts degree, earns 60 or more credits in mathematics, biological and physical science, including a minimum of one year of college level calculus, may, at his option, be granted the Bachelor of Science degree instead of the Bachelor of Arts.
The foregoing curriculum was passed with the following additional recommendations:

1. that this curriculum become effective with the Freshmen entering in September 1965.

2. that the Curriculum Committee be charged with the responsibility for assigning courses to one of the three areas in Section III of the new curriculum proposal under the following procedure:

Departments will forward to the Curriculum Committee their recommendations for course assignments. The Curriculum Committee will review these recommendations and then submit its recommendations to the Dean of the College of Letters and Science for final approval.

3. that the requirement in United States History and Institutions be dropped by the College of Letters and Science.

PROPOSAL FOR NEW LETTERS AND SCIENCE CURRICULUM

Bachelor of Arts - General Course

Section I  Elementary Requirements
Requirements A, B, and C must be satisfied but no more than 14 college credits from Section I can be counted towards graduation. All requirements in Section I should be completed by the end of the sophomore year.

These requirements can be satisfied by:
1. High school courses or
2. College courses or
3. Examination or
4. Any combination of the above

A. Proficiency in English
   Established by one year of Freshman English with possible exemptions.

B. Mathematics
   1. Three years of high school mathematics in the fields of algebra, geometry and trigonometry or
   2. Completion of a college course in algebra and a college course in trigonometry or
   3. Completion of a college course in algebra and a college course in logic.

C. Foreign Language
   1. The equivalent of 14 credits in one foreign language (or by examination) or
   2. Sixteen credits in two foreign languages (only if 2 years of high school Latin are offered in partial satisfaction).

Section II  Requirement A or B must be satisfied

A. Foreign Language
   1. Six credits beyond the intermediate level (courses numbered 220 or above) in one foreign language or
   2. Twenty-four credits total in two foreign languages, or equivalent proficiencies (including foreign language requirements in Section I) provided at least 14 credits are in one language.

B. Mathematics
   Eight credits of mathematics at or above the 200 level, or the equivalent of a year course in calculus.

Section III  All requirements must be satisfied
Not more than 10 credits from any one department may be counted toward the satisfaction of the degree requirements of this section. However, credits in courses used to satisfy these requirements can be included in the major. Courses designated as acceptable for satisfaction of the requirements of this section will be identified in Timetables as Language and Literature, Social Sciences or Natural Sciences. No course can be counted for more than one classification.

Credits taken in Section II may be applied to satisfy requirements in this section.
A. Language and Literature
12 credits. Must include 6 credits of any combination of
1. Sophomore level courses in English or American literature;
2. Literature courses beyond the intermediate level in foreign languages; or
3. Designated courses in the Comparative Literature department.

Not more than 6 credits of sophomore level English and American literature may be
counted toward the 12 credit Language and Literature requirement.

B. Social Sciences
15 credits, at least 6 of which must be in the department of History.

C. Natural Sciences
15 credits in the Natural Sciences including two semesters of laboratory science.

The following distribution of departments is intended as a guide until Timetable designations are made:

Language and Literature          Social Sciences          Natural Sciences
Classics                          Anthropology           Botany
Comparative Literature           Art History            Chemistry
English                           Economics              Geography (Phys.)
French and Italian               Geography (Cult.)       Geology
German                           History                Mathematics
Hebrew Studies                   Journalism             Physics
Linguistics                      Philosophy              Zoology
Slavic Languages                 Political Science
Spanish and Portuguese          Psychology              
Speech                           Social Work             
                                   Sociology              
                                   

Major Study
A student must be accepted as a major by at least one department no later than the first
semester of his junior year. The student must earn the grade point average required by
the department for admission to the major and must satisfy the major requirements. In no
case may the major average be less than C. No more than 45 credits taken in any single
department can be counted in the 120 credits required for graduation.

Double Majors
With the approval of the Dean, a student may elect a major in a second department.

Total Credits
At least 120 credits are required for graduation, 100 of which must be in liberal arts
subjects. The other 20 credits must be in courses approved by the College of Letters and
Science. When more than 14 credits are taken to satisfy the requirements in Section I,
the credits in addition to the 14 will not be included as a part of the 120 credit
minimum. At least 75 of the credits included in the 120 must be outside the major and
outside of any one department.

Bachelor of Science - General Course

A student who, in completing the requirements for the Bachelor of Arts degree, earns 60
or more credits in mathematics, biological and physical science, including a minimum of
one year of college level calculus, may, at his option, be granted the Bachelor of Science
degree instead of the Bachelor of Arts.
Letters and Science Curriculum Committee Revised Proposal
for New Letters and Science Curriculum

The above curriculum has passed with following additional recommendations:

The Curriculum Committee recommends that the new Letters and Science curriculum embodied in this document be adopted, and,

1. that this curriculum become effective with the Freshmen entering in September 1965

2. that the Curriculum Committee be charged with the responsibility for assigning courses to one of the three areas in Section III of the new curriculum proposal under the following procedure:

Departments will forward to the Curriculum Committee their recommendations for course assignments. The Curriculum Committee will review these recommendations and then submit its recommendations to the Dean of the College of Letters and Science for final approval.

3. that the requirement in United States History and Institutions be dropped by the College of Letters and Science.
