**Motion:** The APC moved and unanimously approved a change in *Selected Academic and Administrative Policy 2 (S-2), Adding Courses.*

**Rationale:**

The current policy is being amended to reflect a proportional period for adding courses regardless the length of the class.

**Tracked version:**

University of Wisconsin - Milwaukee students may add classes for which there is remaining enrollment capacity and for which they meet published prerequisites or enrollment restrictions on or before the Add deadline.

The Add deadline for full term class classes in fall and spring semesters will be the tenth day of instruction for the semester *(Saturdays, Sundays and holidays will be excluded). The Add deadline for classes meeting in partial term sessions will be proportional to full term classes.* The Add deadline will be the Friday of the first week of class. In UWinteriM, the Add deadline will be the first day of the session.
