Annual Report of the Graduate Committee, 1964-65

The activity of the elected Graduate Committee has been lessened since the establishment in January, 1964 of the UWM Subcommittee of the Administrative Committee of the Graduate School. It is the feeling of the elected committee, however, that it should continue to exist, for the present at least, in order to assist the Sub-Committee in areas of general promotion of graduate work at UWM and in matters affecting the expanding graduate student body.

The committee held two meetings since the last annual report was made.

On May 13, 1964, an organizational meeting was held and the 1963-64 officers - Professor Haglund (chairman) and Professor Aderman (secretary) - were re-elected.

The committee met on January 15, 1965, and a number of matters were discussed. The UWM faculty bibliography project, co-sponsored by this committee, and directed by Professor Aderman, was reviewed. The committee noted with satisfaction the progress toward publication which has been made. The committee further noted with great satisfaction, the considerable expansion in graduate programs, faculty, and offerings in graduate work on the Milwaukee campus in the past year. Most departments have now commenced offering graduate work, masters degrees are available in a majority of them, and in several a Ph.D. program will exist within another year or two. Details concerning such programs, are available in the Milwaukee Graduate School office.

GRADUATE COMMITTEE

R. Aderman, Secretary
G. Gleason
D. Haglund, Chairman
M. Kurz
M. Marden
R. Paull
