The Committee discussions revolved around the history and functions of this Committee and its relation to the future planning of the Committee systems of the University.

It appeared that the broad charges to the Student Counseling and Guidance Committee which had originated at the merger of the Extension School and the Milwaukee State Teacher's College were no longer valid due to administrative and Committee changes within the University. Although members of the Committee expressed their interest in serving on a committee which was involved in student advising and personal services it was felt that this Committee no longer provided such an opportunity for its members.

In surveying the recent history of the Committee it was pointed out that there have been no requests for services to the Committee, that it appears to have no clear identification with any Administrative unit in the University related to its charge, and functions of the Committee are being covered by other Committees and growing administrative units.

The following recommendation was unanimously approved by the Committee to be presented to the Faculty.

It is recommended that the Student Counseling and Guidance Committee be dissolved, but that the function of the Committee should be subsumed in a Committee such as the Student-Faculty Conference Committee on Educational Affairs, which makes recommendations concerning matters of educational interest, and which could include areas of student-personnel services, if this is appropriate.

It should be added that the Committee indicated that the dissolution of the Committee did not reflect lack of interest upon members in serving on a Committee, but rather that it was felt that faculty participation is of value in relevant Committee involvement.
