Proposed Changes in the Undergraduate Program in Physical Education

Each physical education major will elect one area of emphasis (as listed below) and complete a minimum of four (4) credit hours with the consent of the advisor. (A total of 34 credit hours in physical education is required as a minimum for certification.)

Recommended areas of emphasis:
Adapted Physical Education
Dance in Schools
Elementary School Physical Education
Health Education
Kinesiology
Recreation
Secondary School Physical Education

Discussion:
The above modifications in the physical education program have been made with the hope of achieving a somewhat greater emphasis or depth in one aspect of the physical education program. This has been done by:

1. Dropping two recreation courses from the requirement minus 4 credits
2. Changing the credit earned from 3 to 2 in
   PE 205 - Organization and Administration minus 2 credits
   PE 267 - Health Education
3. Adding as a requirement for all students
   PE 570 - Measurement and Evaluation in Physical Education plus 2 credits
4. Adding the electives in an emphasis area plus 4 credits
