The UWM Admissions Committee held five meetings during the period from April 20, 1966 to April 19, 1967. Problems considered and action taken included the following:

1. In response to the formation of a Study Committee on Admission Testing appointed by the Chairman of the All-University Committee on Admissions Policy to study the feasibility of dropping test requirements for resident students, all aspects of admissions testing at UWM were discussed. A recommendation was passed and forwarded to the All-University Committee favoring continuation of the present policy of requiring one test, either the Scholastic Aptitude Test or the American College Test, of all freshmen applicants. The Study Committee in its final report made this same recommendation.

2. A recommendation was made to the UWM ad hoc Codification Committee that one or two student members be added to the Admissions Committee.

3. In response to a proposal by the Director of Summer Sessions, Madison, that provisional summer session admission for otherwise unacceptable freshman applicants be tried on an experimental basis, a recommendation was passed and forwarded to the All-University Committee on Admissions Policy that this not be tried on the Milwaukee campus at the present time. Through our counseling program for rejected applicants and through other educational opportunities available locally this problem seems to be adequately handled on this campus.

ADMISSIONS COMMITTEE
