I. Introduction

This year, 1966-67, the Student Life and Interests Committee, having jurisdiction subject to faculty direction and control over all extra-curricular activities and interests of students, met for thirteen sessions to date. Two more meetings are scheduled before the close of the semester, May 3rd and 17th. It is typical procedure for many of the problems to be referred to the SLIC subcommittees for investigation and recommendation. The subcommittees are as follows: 1) Finance, 2) Fine Arts, 3) Fraternities, Sororities, and Social Life, 4) Publications, 5) Student Government and Organizations, and 6) Student Health and Housing. C. Report of Subcommittee on Fraternities, Sororities & Social Life

The fraternities and sororities have continued a pattern of expansion
both in number of members and number of organizations. The most
significant development has been in the area of off-campus housing,
with four groups currently leasing residences near the campus.

The Panhellenic and Interfraternity Councils are both attempting to
upgrade the quality of programming connected with their member groups
through a series of workshops and conferences. These have included
workshops on publicity, rush, a full Greek Week program and a state-
wide Panhellenic conference.

D. Report of the Subcommittee on Health and Housing

The Subcommittee on Health and Housing met four times during the year.

At its first meeting a statement was submitted to the ad hoc Codification Committee in which the question was raised as to overlapping responsibilities between this Subcommittee and the Committee on Housing. It was suggested that there was an area that needs clarification.

The Subcommittee discussed the effect on student health services of 2,000 or so resident students by 1970, and 4,000 by 1972, and recommends that early next year the committee survey and project student health needs with respect to a full-time physician, psychiatric counseling, and the establishment of an infirmary.

It was decided that the student health insurance contract with the present carrier be re-negotiated for the coming year, adding a non-duplicator clause and substantially increasing the coverage of hospital room and board, but keeping the premium under $30. Specifications should be prepared next November for the following year and submitted to several carriers for bids.

A report of the first semester investigation was submitted to SLIC members, in writing, in February. The second semester report, to include the result of consultation with POST, IVY, and CHESIRE editors, will be submitted in May. Both reports are submitted in writing to all members of parent SLIC,
