Annual Report of the Student-Faculty Conference Committee on Educational Affairs

Several meetings were held during the one year tenure of this committee. Discussions were held about the pass-fail system proposed by students and also about the potential involvement of this University in the education of urban ghetto youth.

It was noted that in the past several years there has not been much involvement of this committee with active participation in University affairs. Perhaps clarification of the committee for next year might be helpful.

The appointment of the student members appears to be a difficulty. Although the faculty members appreciated the involvement of the one student member, this appointment did not occur early enough in the year to provide for a program or forum for particular action.

It might be suggested that the Student Faculty Educational Affairs Committee become more closely involved with the University Committee, to whom it is charged to report. This might offer the Student Faculty Educational Affairs Committee an opportunity for participation in relevant activity.
