Memorial Resolution for Emeritus Associate Professor Ernestine A. Troemel

Ernestine A. Troemel, Emeritus Associate Professor, Department of Physical Education, School of Education, University of Wisconsin-Milwaukee, died in Madison, Wisconsin, on March 10, 1968, at the age of 67.

Ernestine Troemel received her elementary and secondary education in the Madison Public Schools and earned her Bachelor of Science degree at the University of Wisconsin. She received her Master of Arts degree at Teachers' College, Columbia University. Further study had been done at New York University, Florida State University, Marquette University, and University of Wisconsin.

Miss Troemel's professional career began at the University of Oregon as an instructor in health, physical education and recreation, then on to the Director of Health and Physical Education for Women at Moorehead State Teachers College, Kentucky. Leaving there she taught at both Fairmont State Teachers College, West Virginia, and Florida State at Tallahassee.

In September, 1948, 'Ernie,' as she was affectionately called by anyone who knew her, came to the Department of Physical Education primarily to work in the area of health education. She was also responsible for activity areas and taught physical education to Campus School girls in the seventh and eighth grades. Within a few years she relinquished her responsibility at the Campus School and concentrated her efforts more fully in the health and hygiene area.

That Miss Troemel was concerned with health and education was apparent throughout her career. She was affiliated with the National Council on School Health; Wisconsin Health Council; Health Education in the Wisconsin Association for Health, Physical Education and Recreation; Midwest Association for Physical Education of College Women; and UWM Local 79 of the American Federation of Teachers. Miss Troemel served these organizations in a number of capacities, among them a Public Health Study Tour in Europe.

The professionalism and dedication demonstrated by Miss Troemel to her field was always inspirational and far-reaching; students and teachers alike felt her warmth, understanding, and concern for individuals in the teaching profession.
