Annual Report of the Space Utilization Committee

The Committee met early in the year and did not elect a permanent chairman. There was a discussion on whether or not the committee had any real function in that space allocations are pretty much administration decisions.

The second meeting was called as a matter of information. The administration informed the Committee that the School of Architecture was to be located on the Civic Center Campus. There was some discussion and no objections to this decision were raised.

The Committee's inactivity is an indication that it may be a superfluous committee and at a future meeting this question will be taken up and recommendations be made.
