ANNUAL REPORT OF THE 1968-69 ARCHIVES COMMITTEE

The Archives Committee advises on the collection, preservation, and use of those UWM records and memorabilia which are no longer needed for day to day operations in all parts of the University. It consults primarily with Mr. Donald Woods as Curator of the UWM Archives.

This year the Archives have again been augmented by a large number of important accessions, and the curator has continued his efforts to inventory as well as collect important UWM records held by units at all levels of operation. Mr. Walter S. Toth in the office of the Dean of the College of Letters and Science has lent special assistance in such collecting. The curator has also completed for general University use a brief identification and description of "UWM Student Organizations and Publications, 1894-1968 (A Preliminary List)."
