ANNUAL REPORT OF THE SAFETY COMMITTEE 1969-70

The UWM Safety Committee met to discuss and act on several matters of safety policy and procedure on campus. A number of recommendations were made by the committee.

Two recommendations concerned smoking on campus; one recommended the establishment and clear designation of smoking and no smoking areas in campus buildings; the other, prohibition of the sale of cigarettes on campus.

Another recommendation was concerned with obtaining a lasting solution to the blowouts of spandrel lite glass panels on the P & E Buildings.

The committee recommended the addition of two students to its committee membership and the addition of the chairman of two other safety committees on campus as ex-officio members.

The Safety Committee met with the new Union-Management Health and Safety Committee in an effort to establish a basis for cooperation which could lead to improved effectiveness of both committees.

The committee also discussed the need to improve the faculty's awareness of safety procedures and the Safety Committee's functions.
