The ROTC Committee maintained all essential contacts with the program during the past year. The following items of primary interest to the Committee are reported to the faculty:

1. The experimental Curriculum "C" involving courses taught in five academic departments (Communications, Geology, History, Political Science, Sociology) was successfully continued for a second year. It was recommended by the Committee that Curriculum "C" be continued as a permanent part of the ROTC Curriculum beginning School Year 1970-71. The curriculum continues to be reviewed and made more flexible following the suggestions of the Benson Committee and the Nelson Committee Reports (available on request from the Secretary of the Faculty).

2. The Committee noted that over 50% of the ROTC graduates from the University of Wisconsin-Milwaukee ranked in the upper 1/3 of the service schools attended, compared with a national average of 34%. The Committee feels that in part this is due to the flexibility of Curriculum "C" which requires ROTC cadets to take elective courses in departments in the College of Letters and Science.

3. A new orientation program was introduced during Summer 1969. The program stresses the role of the student in ROTC and acquaints incoming students with the Program, thus enabling students to enroll in Curriculum "C" courses.

4. A wide variety of activities were performed by ROTC students both as a service to the University and the Community, and to provide training opportunities for the cadet; these activities, for example, Ranger Rifle Team, Pershing Rifles, the Military Ball, the Turkey Shoot, Camp McCoy training session, and honor guards are reported in a detailed report of the Committee available on request from the Secretary of the Faculty.

5. The Committee recommended to the Chancellor that two students be appointed to the Committee.

6. The Committee continued its practice of evaluating, both through vitae and interviews, the Professor and Associate Professor of Military Science. In this task they were assisted by the chairmen of the departments involved in Curriculum "C". Recommendations for appointment were then made to the Chancellor who acted favorably upon the recommendations from the Committee.
7. The Committee reviewed the contents of the contract between the Regents and the Department of the Army in regard to ROTC on the UWM campus and suggested minor modifications for the Chancellor's consideration.

8. The Committee found that the ROTC at UWM met all guidelines set forth by the American Civil Liberties Union in their letter to the Chancellor of 9 March 1970.

A detailed report of the Committee reporting all activities of the Department of Military Science is available from the Secretary of the Faculty on request.
