MOTION

Move that the University Calendar formula adopted by the UWM Faculty Senate on March 12, 1970 be rescinded and that further attempts to provide a new Calendar be made with adherence to the following guidelines:

A. Each semester will consist of no less than 15 weeks of classes plus an appropriate examination period.

B. The second semester will not start at such a time as to impede the transfer of students into UWM from other UW branches and from the State Universities.
