The responsibilities of the Archives Committee are to advice on the collection, preservation and use of UWM records and memorabilia no longer needed for day to day use. Material has been added to the Archives during all of the past year. Some major acquisitions were added in the summer and early fall, following a request sent out in late spring of 1969.

The committee discussed, among other items, the membership of the committee and current procedures for use of the materials in the Archives. Efforts will be made to acquire materials relating to the Milwaukee WPA Handicraft Project, sponsored by Milwaukee State Teachers College in the late 1930's.
