ANNUAL REPORT OF THE UNIVERSITY COMMITTEE-MILWAUKEE

The University Committee-Milwaukee is authorized to consider any matter that concerns the interests or affects the policies of the University. Its jurisdiction may, if the members wish, overlap that of other duly constituted UW-M committees, but generally it seeks to represent the faculty interest where no other faculty group operates. It deals with questions referred to it by the administration, by other committees, and by individual faculty members, and it often initiates and carries out studies and makes recommendations thereon.

The Committee keeps no minutes of its deliberations but deems it appropriate to present the following report to the Faculty to suggest or indicate the character and the scope of its activities during the last year.
