WHEREAS, public access to cigarette vending machines facilitate the individual's exposure to the risks of chronic ill health through the purchase of cigarettes; and

WHEREAS, public access to cigarette vending machines, regardless of signs of warning of legal age limits on the purchase of cigarettes, facilitates if not encourages underage children to buy cigarettes, therefore,

BE IT RESOLVED, that the Senate of the Faculty of the University of Wisconsin-Milwaukee disapproves of the cigarette vending machines in any classroom or office building of the university and urges the administration of this university to terminate at the earliest feasible date whatever contracts may exist which enable said machines to be located in classroom or office buildings.
