INTERIM REPORT OF THE AD HOC COMMITTEE ON CONFLICTING ACTIVITIES

Following the directive of the senate, the committee studied Chapter 10C and UWM Faculty Document 685A; solicited the views of representatives of students, faculty and administrators; held an open meeting, on March 15, 1972, at which several such views were presented by members of the three areas of the academic community; received written statements and other pertinent documents; and is now studying all of the material obtained, including information from another university.

Since certain pending faculty legislation may have a bearing on our final report, we have decided to delay submission until next fall, when we plan to offer our recommendations at the first faculty meeting of Semester I, 1972-1973.

Ad Hoc Committee on Conflicting Activities
