Report of the Library Committee

December 21, 1972

Actions of the Library Committee concerning the open hearing on the issue of centralized library facilities. This hearing, which was ordered by the Faculty Senate last spring, was held on December 1, 1972. The committee listened to testimony for two hours.

A week later, the Library Committee met, discussed the testimony and the letters elicited by it, and passed the following motions:

1. that in the judgment of the Library Committee, the open hearing held on December 1 at the direction of the Senate has confirmed the decision of the Senate made on May 14, 1972, to support the principle of centralized facilities at UWM;

2. that the Science Complex Collection be consolidated with the main UWM Library Collection upon completion of Library Stage II in fall, 1973; and

3. that in conjunction with the consolidation of collections, the Library Committee review the circulation policies of the UWM Library in fall, 1973.

Respectfully submitted,

Ralph M. Aderman
Chairman, UWM Library Committee
